NO BORDERS

WELCOME TO THE EFA AFTER-SHOW PARTY!

Time Travel in Flip-Flops And Dance Into the Morning – Great Drinks and No Meat!

After celebrating the achievements in European film, the nominees and winners, the party welcomes all guests, EFA Members, friends & partners of European film, and invites all to mix and mingle, make new friends, exchange ideas and celebrate together. Some will prefer chatting with friends and colleagues, newly acquired or connected for a long time, some possibly not seen for quite a while. Some want to roam the rooms and discover.

We welcome all of you. We believe in diversity and sustainability and, together with our partners, we have spent a considerable time developing ideas for this get-together. Please allow us to introduce some of these ideas and partners:

The historic **Cafe Moskau** was built in the early 1960s on one of the main boulevards of East Berlin. As a place of representation for Russian cuisine and culture, it was a popular and frequently visited spot. It was also an attraction for many GDR actors, who came over after their premieres in the neighbouring Kino International to end their evening in the restaurant or night bar.

Our mobility partner **ŠKODA**, who have shuttled nominees and winners across the city in great comfort, now allow all of you to travel back in time: Get into a stylish old-timer, the POPULAR ROADSTER, and have your picture taken in front of a backdrop of Berlin in the 1930s – to share via #skodaandefa!

European Film Academy e.V. www.europeanfilmacademy.org www.europeanfilmawards.eu

Also picking up the wild past of Berlin is **Berliner Mumpitz**, a Berlin-made smoothie liquor that comes in six flavours: rhubarb cardamom, peppermint sage, passion fruit lemongrass, peach hop, mango ginger and lemon basil, each of them named on a unique Berlin character from the 1920s. A tribute to freedom, cheekiness and the joy of frivolity, the bar includes the artist Katja Wiedemann who designed the label art.

GLS have been our partners for many years, they ship the EFA Statuettes from designer Theo Fennell in London to us and, after the awards and engraved with the winners' names, on to the award recipients. Tonight they provide a safe deposit for those statuettes while their bearers can freely celebrate and party. For anyone who feels their shoes a bit more than what's enjoyable, you can check those in at the shoe wardrobe and continue in comfy flip-flops before you pick up your shoes when leaving.

The tasty and sexy-looking food comes from our partners Berlin Cuisine and Lunch Vegaz. There is no meat. Whether carnivore or vegan, you will find delicious non-meat food provided by **Berlin Cuisine**: Each meal is made exclusively from local ingredients and presented in its own skin or peel. This saves tons of dishes, water, time and money. Their dishes have included grilled sunflower root with sunflower seed hummus in the blossom of a sunflower and filled eggshells with baked cauliflower, crunchy nut butter, and egg yolk sauce hollandaise. Find out what they serve at the EFA After-Show Party ...

LunchVegaz also presents a buffet: They stand for sustainable gourmet, organic, vegan convenience food of the highest quality. Natural, organic ingredients and fresh vegetables are used exclusively – preservatives or flavour enhancers are off limits.

For any biodegradable waste, the courtyard will offer an improvised compost – not just for show, this will be re-used.

The bars serve great drinks, alcoholic or not, made by people who know what they're doing:

Sankt Pauli Spirituosen, the guys from the Reeperbahn in Hamburg, is honest, open, cheerful and unadjusted. Their spirits don't have to rest in old barrels for years, nor are they bottled by virgin dockers at full moon. They make honest, artisan good and special spirits with a keen eye for details, a tribute to the Hamburg district of St. Pauli with Reeperbahn and harbor and the people who make this area unique. **Podrum** adds a stylish Whiskey bar to the party and other partners bring Crémant from Bouvet Ladubay, Fritz-Kola and healsi water.

Our dear friend **Carlos Areces** will once again have the people crowding the dancefloor. And **Red Bull** brings us four further great DJs, **Lovra**, **Porto Bello** alias **Trystan Pütter**, **William Minke** and **DJ Schowi** to make sure the party continues into wee hours of Sunday.

Upstairs, room "Tallinn" is the place to try out new stuff: **Myk Baum** invites guests to create and change the visual atmosphere with their own movements – just try it! From half past midnight, **DJ Akikazu M.** offers a dancefloor experience of a different kind: Just grab a pair of headphones and join the "Silent Disco"!

Enjoy!
